

Canary Hearing COVID-19 Update (March 30, 2020)

Dear Friends,

State and federal authorities are clearly taking extraordinary measures to help save lives by slowing the spread of COVID-19. Today Governor Hogan issued a stay-at-home order for the state of Maryland. All leading authorities expect this pandemic to become worse in the next few weeks and it is clear we are entering a critical phase in our efforts to slow the spread. As a result, we will be postponing all office visits for the foreseeable future. If you had a scheduled appointment in the next few weeks we will be calling to reschedule.

During this difficult time I will be available to provide service to any of my patients should an emergency arise. We will be available to answer phones Monday through Thursday 9am – 4pm and Friday 9am – 1pm. If you need emergency service to help stay connected to friends and loved ones please do not hesitate to call me at **410-224-4327**. We will make arrangements to provide care in a safe and responsible manner.

If you are new to my practice and would like to set up an appointment for a hearing evaluation please call the number listed above. I will be happy to arrange a visit just as soon as we are able.

Thank you for your patience as we all work together to blunt the growth of this horrible pandemic. We look forward to getting back to “business as usual”. Until such time my staff and I wish you and your family health and happiness.

- Mike Canary
